

Supporting the Wisconsin Grocers Association Political Support Program benefits retailers, warehouses, and vendors by ensuring that the grocery industry thrives and survives in our highly political and regulated environment.

The Political Support Program is an integral part of WGA's total government affairs program and supports our efforts to play an active role in the political process.

If the WGA does not express its opinion, others will—some whose interests conflict or compete with ours. Therefore, it is important that we actively support candidates who share or understand our point of view.

Supporting the WGA Political Support Program is supporting the Wisconsin retail food industry.
